- We are recording! Link will be available at [SaveOurStats.com](https://www.SaveOurStats.com)

- What is a metric?

*A standard for measuring or evaluating something, especially one that uses figures or **statistics***

Dictionary.com

- Statisticians work with metrics!

- Journals: Bio**metrics**, Biometrical Journal, ...
- Professional Societies: International Bi**metric** Society (2nd largest professional society for statisticians)
- Recent presentations:
 - Bilder, C., Nguyen, M., Tebbs, J., and McMahan, C. "How complex is pooled testing for STI detection? A new **metric** to evaluate its implementation," STI Prevention Conference, September 17, 2024; Atlanta, GA.
 - Bilder, C., Nguyen, M., Tebbs, J., and McMahan, C. "A new **metric** to evaluate algorithm complexity for group testing," WNAR/IMS Meeting, June 19, 2023; Anchorage, AK.

- Purpose: Provide a forum for discussion on
 - The data used in The Metrics
 - The formulation of The Metrics
 - The analyses performed with The Metrics
- Why important?
 - Need to get The Metrics correct
 - Faculty and staff jobs and student degree programs
 - Administration indicated an intent to use The Metrics in future
- Many other problems with The Metrics
 - Please see department's report given to APC at SaveOurStats.com
 - More problems found since report finalized

- Susan VanderPlas
- Heike Hofmann
